

Al DAR University College established in 1994 as a higher education establishment, offers a wide portfolio of Accredited Bachelor programs which are industry-related and aim to empower students with the required skills and aptitudes to operate effectively in the modern business environment. Al DAR University College is guided by an academic vision “to be a leading and an internationally recognized higher education institution, contributing to the knowledge society and sustainable development of the United Arab Emirates and the Region.”

We offer a wide portfolio of programs ranging from undergraduate studies to short courses aimed at both students and professionals. Our range of programs consists of Bachelor’s Degrees, Associate Degrees, English Language courses and Exam Preparation courses. All our programs are industry- related and mapping with 4th industrial revolution

This year Al DAR University College Celebrates 25 years of Excellence in education and provides for students high scholarship for all programs including Computer Engineering, Information Technology, Business Administration and Arts and Social Science.

All programs with the different concentrations are accredited by the Ministry of Higher Education – Higher Education Affairs of the United Arab Emirates and carry a worldwide recognition.

In addition to its affordable tuition fees, ALDAR offers a wide range of scholarships including up to 50% scholarship for International students and provides free transportation for Dubai, Sharjah, and Ajman.
